Good afternoon Ms. Fox—

Happy to pass this along to Assistant City Manager King. In addition, I'm copying the [districting@cityofirvine.org](mailto:districting@cityofirvine.org) address. You are more than welcome to submit your questions directly to that address as well if you'd like, and/or copy when sending to us regarding districting related inquiries.

We will respond to your inquiry shortly.

As always, please don't hesitate to reach out to me if you have any other questions or if I can be of further assistance.

Regards,

**Carl Petersen, MPA, CMC**

**CAUTION: EXTERNAL EMAIL**

Hi Carl...

Can you direct this to Brian King or the person responsible for the district maps? My question is where can I find the list for the population count in each Irvine Community? The presentation made a very specific point of grouping communities so that the end result of each being +5,000 or -5,000 in each community. However, we can't do that if we don't know what the population count is of each community. I cannot find this anywhere on the city website or any website.

Thank you.

Good afternoon Ms. Fox,

Thank you for reaching out. Instructions on how to draw a map can be found on the City's districting website at [DrawIrvine.org/Draw-A-Map](http://DrawIrvine.org/Draw-A-Map). The [paper map kit](#) (also attached for ease) contains population counts for each "population unit" area. The online mapping tool, [Dave's Redistricting App](#), also contains population counts of each area.

Please note for Dave's Redistricting App, you must [register](#) to create a user account to draw a district map.

- [Watch a short video introduction to Dave's Redistricting App](#)
- [Watch an in-depth video tutorial on Dave's Redistricting App](#)

Should you have any further questions, feel free to reach out.

Thank you,  
Kylie

Hi Ms. Fox,

I just wanted to send the map with the total populations for each planning area as well. This map is available at [DrawIrvine.org/Draw-A-Map](http://DrawIrvine.org/Draw-A-Map) and I'm working on adding the shapes to the DRA tool as well.

Justin
